

DEPARTMENT OF DEFENSE
BASE STRUCTURE REPORT

(A Summary of DoD's Real Property Inventory)

FISCAL YEAR 2004 BASELINE

OFFICE OF THE DEPUTY UNDER SECRETARY OF DEFENSE
(INSTALLATIONS & ENVIRONMENT)

Report Documentation Page				Form Approved OMB No. 0704-0188	
Public reporting burden for the collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to a penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

Department of Defense Base Structure Report (BSR)

I. INTRODUCTION

Since the 1999 edition, the Department of Defense has used its consolidated real property inventory (the Facilities Analysis Database) as the basis for the annual publication of the Base Structure Report. This report contains a comprehensive listing of installations and sites owned and used by the Department. It summarizes the current facilities inventory and provides other basic information, such as information concerning the site locations, names of the nearest city, and, where available, includes personnel authorizations.

The Department's physical plant is large by any standard, consisting of more than 586,000 real property records (buildings, structures and utilities) located at more than 5,500 locations, on more than 29 million acres. Sites range in size from small, unoccupied locations supporting a single navigational aid on less than one-half acre, to the Navy's complex of installations at Norfolk, Virginia with more than 78,000 employees, and to the Air Force's Nellis Air Force Range in Nevada, that includes over 3.0 million acres. Capturing this vast set of assets in a single, manageable document requires some summarization and, as in previous Base Structure Reports, the focus of this report is on the number of sites and their location, owned and leased buildings, square footage, and acreage.

II. PORTFOLIO SUMMARY

The Department of Defense owns or has use of large amounts of real property in the United States and throughout the world. Over 83% of the 5,543 DoD sites are located in the United States or U.S. Territories. The majority of the foreign sites are located in Germany (306 sites), Japan (158 sites) and South Korea (105 sites). The remaining sites are dispersed among 43 other foreign countries.

The real property portfolio managed and reported by the Department is classified as buildings, structures, utilities, or land. If the land records were excluded, then 57% of all DoD's real property records are categorized as buildings, roughly 30% are reported as structures, and the remaining 13% are classified as utilities. Records for structures consist of carport, covered outdoor storage areas, tent pads, etc., for example. Utility records consist of pavements, pipelines, electrical cabling, etc. Of the total reported DoD inventory, 89% of the real property records show facilities that are owned by the Military Departments with less than 6% being leased facilities. The remaining facilities are primarily foreign owned (2.6%) and privately owned (2.3%), but are reported because they are being used or permitted to the Department for use. The reported plant replacement value, which is the cost to replace these facilities using today's construction costs and standards, of DoD's inventory is approximately \$646 billion - \$406 billion for buildings, \$159 billion for structures, and \$81 billion for utilities. Over 81% of the DoD portfolio's plant replacement value (PRV) is located in the United States or its territories. Of the 29 million acres of land used by the Department of Defense, 82% of the department's land is owned and 98% of the acreage (owned or leased) is located in the United States or U.S. Territories.

Department of Defense Base Structure Report (BSR)

The table below summarizes owned and leased real property to include acreage, number of buildings and square feet, which make up the DoD portfolio for the fiscal year 2004 baseline, as of September 30, 2003.

Real Property Location	Number Buildings Owned	Buildings Owned SqFt	Number Buildings Leased	Buildings Leased SqFt	Total Acres	Acres Owned	Total PRV (\$M)
United States	254,513	1,858,157,792	8,193	48,369,150	28,389,706	27,404,619	510,318
U.S. Territories	6,563	27,982,268	18	457,156	100,861	82,302	16,037
Foreign	30,172	143,367,095	15,930	155,826,307	709,095	876	120,454
Grand Total	291,248	2,029,507,155	24,141	204,652,613	29,199,662	27,487,798	646,809

Table 1: Overview of Federally DoD Real Property holdings.

DoD sites are located at all 50 States, 9 of the U.S. Territories, and 46 foreign locations. Figure 1 summarizes locations of DoD sites by Service and Agency.

Figure 1: Location of DoD Sites by Service/Agency.

Department of Defense Base Structure Report (BSR)

Building Profile

DoD owns and leases a reported 315,389 buildings throughout the world, valued at over \$405 billion and comprising over 2.2 billion square feet of building area. The Department implemented a facility classification system that groups facilities with similar functions and units of measures into Facility Classes. Those Facility Classes driving the largest PRV costs are Maintenance and Production, Supply, and Troop Housing and Mess Facilities.

Figure 2: Building Profile by PRV \$B.

Department of Defense Base Structure Report (BSR)

Land Profile

DoD manages a reported 29.2 million acres of land worldwide. More than 98% of that land is located in the United States or U.S. Territories. The majority of land controlled by the Department (82%) is government owned or acquired through withdrawal from the public. Not surprisingly, the Army controls the largest percentage of the Department's land - 53%. The Air Force manages the next largest portion of the total acreage at 34%. Washington Headquarters Service, which reports the Pentagon Reservation, owns 442 acres.

Figure 3: Acreage by Service/Agency.

Department of Defense Base Structure Report (BSR)

III. CONTENT AND ORGANIZATION

It is important to note the following parameters for the content of this report:

- **Timeliness.** While the base structure is changing continuously, the BSR is a “snapshot” of the DoD’s physical plant, as reported on September 30, 2003. The bases listed may be in various stages of activity, including unused or awaiting disposal. Due to the legalities involved in transferring deeded property, individual Service inventories may include a property record long after the decision has been made to transfer that asset to another organization. Likewise, ongoing additions to the base structure, including in-transfers, are often not officially recorded until well after the actual decision has been finalized.

- **Mode of View.** For the purpose of this report, each entry is defined as a site at a specific location with a name and real property assets (see definition of a “site” in the next section). As an exception, Air Force strategic missile sites were rolled up to the appropriate one of seven parent installations. In the case of F. E. Warren AFB, those missile sites located in Nebraska and Colorado were counted as part of the parent installation total for the state of Wyoming. Additionally, separate Navy/Marine Corps Special Areas are now broken out separately and may or may not be in the same geographical area.

- **Display Criteria.** For practicality of use, this report includes specific information on sites meeting predetermined size and value criteria (except for the Army National Guard State Installations in Section XI). If located in the United States, the site must be larger than 10 acres **AND** have a Plant Replacement Value (PRV) greater than \$10 million to be listed. If the site is located in a foreign country, a site must be larger than 10 acres **OR** have a Plant Replacement Value (PRV) greater than \$10 million to be listed. To preserve comprehensiveness of the report, sites that do not meet these criteria are aggregated as an “Other” location within each state or country. For the Army National Guard State Installations, the criteria is slightly reduced to show approximately the same percentage of the total number of sites as shown in the rest of the report. State sites are shown if the site is larger than 5 acres **AND** has a Plant Replacement Value (PRV) greater than \$5 million. State sites not meeting this criteria are aggregated as “Other” for each state.

- **Personnel Data.** Personnel data at the level of detail shown in this report was not readily available from a single source, so data was collected from multiple sources including the individual Services personnel databases. Since personnel totals reflected in this report are shown as they relate to individual sites or locations and attempt to show all personnel regardless of Service affiliation, totals should not be confused and viewed as representing only individual Service total strength and may not reflect the actual population at a particular site. Detailed personnel questions should be addressed to the appropriate Service manpower or personnel offices.

The report is organized by State/Country and presented first as overall DoD, then by each Military Service. Each record includes the site name, the component (Active, Guard, or Reserves), the name of the nearest city, zip code, primary phone number (where possible), the number of buildings owned and leased, total acres owned by the Services and the total acres used, the PRV (in \$ millions) and the authorized number of military, civilian, and other personnel (when available). The PRV represents the reported cost of replacing the facility and its supporting infrastructure using today's construction cost (labor and material) and standards

Department of Defense Base Structure Report (BSR)

(methodologies and codes). Other personnel include any non-appropriated employees, government contractors (if identified) or foreign nationals performing work at the site.

IV. DATA SOURCES AND DEFINITIONS

The facilities data included in this report is extracted directly from the native Services' real property inventories; i.e., Army - HQ Army Integrated Facilities System (IFS), Navy and Marine Corps – Navy Facilities Assets Database (NFADB), and the Air Force's Real Property Asset (RPA) database. Washington Headquarters Service provided their real property inventory. This report does not attempt to replicate all the details included the source databases. Instead, this report provides a summary view of the Department's installations using common elements that should answer most questions. An explanation of criteria used for each column in the BSR is shown below:

- **SITE:** Indicates the installation or site name as used in the Services' databases. This is based on the Services' Installation Number (Army and Air Force), Unit Identification Code/Special Area Code (Navy and Marine Corps), or Site Code (Washington Headquarters Service).
- **COMPONENT:** Designates the primary component for the owner/reporter of a site or installation, either Active, Guard, or Reserve. For the Navy, this column is also used to designate those sites in caretaker status pending some type of further action. This action may be a pending closure or realignment, or the site could remain in caretaker status.
- **NAME NEAREST CITY:** Identifies the name of the nearest city of reasonable size as reported by the Services.
- **ZIP CODE:** Identifies primary ZIP Code (postal delivery area code) associated with the site or installation. Many large installations may have several ZIP codes; however, only one ZIP code is shown in this report.
- **PHONE NUMBER:** Identifies a local phone number when available. In some cases, a central locator number was used or, for others, the Public Affairs office number was listed.

Important Note on Buildings Information: Buildings and acreage are classified according to the DoD Real Property Classification System (RPCS) Facility Type in lieu of the Services' classification. Square footage amounts are normalized by applying RPCS size limits to each facility according to its RPCS classification. Building sizes exceeding the size limit are reset to the median size based on its facility classification, unless the reported data has been validated by the Service. State Owned building/square footage is applicable to Army National Guard State Installations only.

- **BLDGS OWNED:** Represents the number of buildings owned by the Service at the particular site or installation. It does not include licensed or permitted facilities, State-owned National Guard facilities, or facilities provided by other nations at foreign locations.

Department of Defense Base Structure Report (BSR)

- **BLDGS OWNED SQFT:** Reflects the normalized RPCS building square footage for the buildings identified as owned.
 - **BLDGS STATE OWNED:** Represents the number of buildings that are owned by the State in which the particular site or installation is located.
 - **BLDGS STATE OWNED SQFT:** Reflects the normalized RPCS building square footage for the buildings identified as State.
 - **BLDGS LEASED:** Identifies the number of buildings leased by the Services.
 - **BLDGS LEASED SQFT:** Reflects the normalized RPCS building square footage for the buildings identified as leased in the Services' databases.
 - **TOTAL ACRES:** Identifies the total number of acres owned, used by, or leased to the DoD. It includes public land, state land, land owned by other federal agencies, and acreage of foreign soil used by DoD sites.
 - **PRV (\$M):** Total Plant Replacement Value (PRV) for all facilities (buildings, structures, and utilities) included in the Services RPI databases. This reported value is the cost to replace the current physical plant (facilities and supporting infrastructure) using today's construction costs (labor and materials) and standards (methodologies and codes). The PRV represents the Service-calculated value adjusted for facilities that exceeded the RPCS size limit. The PRV is reduced by the proportional reduction of the facility size.
- Important Note on Personnel Data:** Each Service does not maintain their personnel data to relate directly to their Real Property Information. Every effort was made to match the personnel strengths to the appropriate site. The population outlined in the report may not reflect the actual population of the site. Detailed personnel questions should be addressed to the appropriate Service manpower or personnel offices. This information is provided only to project a level of magnitude when comparing sites.
- **MIL:** Identifies all known military personnel authorized for the site or installation. Includes Active Duty, Guard, and Reserve personnel, regardless of Service affiliation.
 - **CIV:** Identifies all known DoD civilian personnel authorized for the site or installation, regardless of Service affiliation. Note: civilian numbers for the Navy represent assigned personnel not authorized.
 - **OTHER:** Identifies all known other civilian personnel authorized for the site or installation, including personnel paid from Non-appropriated Funds (NAF), Foreign Nationals (direct hire) at foreign locations, and, if available, any full-time contractor personnel, regardless of Service affiliation.
 - **TOTAL:** Sum of MIL, CIV, and OTHER personnel columns.

Department of Defense Base Structure Report (BSR)

V. SUMMARY OF CHANGES MADE IN THIS YEAR'S REPORT FORMAT.

- This year the DoD Real Property Classification System (RPCS) business rules were applied to the Services' Real Property Inventory (RPI) data to facilitate cross-Service analysis. In previous years' reports, facilities were classified according to the Services business rules (e.g., facility type, facility size, Plant Replacement Value). Facilities classified under the RPCS resulted in a mix of facility types (buildings, structures, utility, land) based on the individual Services' business rules. Applying the DoD RPCS Facility Type classification permitted all like Service facilities being classified the same. Additionally, size limits were applied to the facilities to identify and normalize anomalous data. If a facility was over the prescribed DoD limit for the facility type, the size was set to the median size for the facility type unless the reported size was certified as valid by the Services. Since the Plant Replacement Value (PRV) is directly proportional to the size (unit of measure of the facility), PRVs were also proportional adjusted.
- Included for the first time is information from the Washington Headquarters Service (WHS) outlining the Pentagon Reservation. WHS supports DoD's mission in the National Capital Region.
- A section summarizing DoD's real property inventory portfolio was added.
- A new section outlining the State Owned installations and facilities in the Army National Guard was added. As the criteria for listing in this report, a State site must have a Plant Replacement Value (PRV) greater than \$5 million **AND** the site must be larger than 5 acres. State sites not meeting this criteria are aggregated as "Other" for each state.
- Navy/Marine Corps Special Areas, previous counted with their sponsoring activity, are now broken out to permit visibility of areas that were geographically separate from the sponsoring activity, resulting in an increase in the number of Navy/Marine Corps sites being reported.
- Leased buildings include permits and licenses resulting in increased building counts and square footage from last year's report.

VI. CONCLUSION

The Base Structure Report presents the framework upon which America's military readiness is built. A major pillar of our Defense Installations Strategic Plan is to develop and field the "Right Tools and Metrics" for understanding and managing the vast Department of Defense base structure. This document, which provides the ability to view the basic elements of our installations and facilities quickly and concisely, is a valuable tool.

For any questions concerning this report, please send an email message to: BSR@osd.mil. An electronic copy of the BSR is available at <http://www.defenselink.mil/pubs> under reports.
